WEST EUSTON PARTNERSHIP

West Euston Partnership (WEP) was set up in 1992, by local people, to help make the area a better place to work and live in, and is committed to assisting and supporting people living or working in West Euston and other parts of Camden and Central London.

WEP provides a number of services open to the local community through our two accessible buildings, the One Stop Shop and the HPod.

The One Stop Shop is a community resource providing information on local services, volunteering opportunities and help for adults and young people looking for work, training and careers advice. Our advice and guidance on employment, training and education is an impartial, free service. If there is a service that we do not offer we are happy to refer people on to other agencies that are better able to help them.

Our other building the HPod in Cumberland Market, NW1 3RH (next to Regent's Park Medical Practice) is a centre where health based community activities take place such as exercise classes, community café, family and youth activities. The hall, meeting room and kitchen are available for hire at reasonable rates for community activities.

We welcome feedback and requests for information on our services via phone, email or the feedback form on our website.

Come and visit us!

Sometimes it's the only day I go out and I've made new friends.

It makes me forget my pains and I feel fit and healthy.
